SUPPLEMENTARY INFORMATION:

I. Abstract

On March 8, 2018, the President issued Proclamations 9704 and 9705 concurring with the findings of the two reports and determining that adjusting imports through the imposition of duties on steel and aluminum is necessary so that imports of steel and aluminum will no longer threaten to impair the national security. The Proclamations also authorized the Secretary of Commerce, in consultation with the Secretary of Defense, the Secretary of the Treasury, the Secretary of State, the United States Trade Representative, the Assistant to the President for Economic Policy, the Assistant to the President for National Security Affairs, and other senior executive branch officials as appropriate, to grant exclusions from the duties for domestic parties affected by the duties. This could take place if the Secretary determines the steel or aluminum for which the exclusion is requested is not produced in the United States in a sufficient and reasonably available amount or of a satisfactory quality or should be excluded based upon specific national security considerations. The President directed the Secretary to promulgate regulations as may be necessary to implement an exclusion process. The purpose of this information collection is to allow for submission of exclusions requests from the remedies instituted in presidential proclamations adjusting imports of steel into the United States and adjusting imports of aluminum into the United States.
